

300 FIRE FIGHTERS THOUGHT DEAD

SUPERVISOR CAN FIND BUT HALF OF FORCE OF 600 MEN FIGHTING FIRE

Raging Holocaust Sweeps Uncontrolled
Over Idaho—President Appealed
To—Troopa Ordered Out

WALLACE, Idaho, Aug. 23.—Three hundred government fire fighters in the Couer d'Alene district are believed to be dead.

This information was given out by Supervisor Weigle, who declared that three hundred of the six hundred men in his force are still missing. He said:

"I had six hundred men working north of the headwaters of the Couer d'Alene, sixty miles from Wallace, and on the headwaters of the St. Joe river, six hundred miles south of Wallace. Until 8 o'clock this morning, three hundred of the men working in the worst section, where the fires have raged the fiercest, are unaccounted for. Never have I seen conditions so appalling. The flames defied all resistance, rushing from twenty to seventy miles an hour, and sweeping everything. Up and down gulches, across mountains, over deep ravines, the fire rushed, leaving only death in its path."

GOV. BRADY APPEALS TO
PRESIDENT FOR TROOPS

BEVERLY, Mass., Aug. 23.—Governor Brady of Idaho, today sent the following message to President Taft: "Unconquerable fires are eating the forests between Avery and St. Joe. The settlers have been driven out. Seventy-five dead at St. Joe; seven rangers' corpses have been found there. Fifty are missing, and are believed to be dead. I am convinced the conditions warrant the calling out of the militia at American Lake."

Troops Ordered Out

WASHINGTON, Aug. 23.—Lieutenant General Wood has ordered three companies of infantry to proceed to Tahoe forest to fight forest fires. The order is in response to the first appeal for aid to the war department from California.

Officially reporting thirty-three dead

In the Couer d'Alene forests and today, Associate Forester Silcox today wired the Department of Agriculture from Missoula. He also reports several large fire fighting crews missing.

FURTHER APPEALS FOR
TROOPS IN MONTANA

BUTTE, Aug. 23.—The fires in the Gallatin forest near the Bozeman conflagration in Northeastern Montana are considered among the worst fires burning in the state today. An appeal has been sent to Governor Norris to call out the Butte state militia to assist the fire fighters. Another appeal for help reached the governor from Fergus county. A number of new fires were reported to have started during the night.

RESCUE PARTIES SPEED
IN AUTOS TO FIRE ZONE

HELENA, Aug. 23.—Fire conditions have improved slightly since last night but are still far from satisfactory. Relief parties left Helena in autos today for the Blackfoot country to rescue parties from the fire zone.

Idaho Situation Improved

SPOKANE, Aug. 23.—The forest fire situation has improved in Idaho within the past twenty-four hours except in the Wallace and St. Joe river districts. There the flames have licked up the timber strip and continued to blaze fiercely. Though the outlook is discouraging there is also a feeling of relief as it is believed the fires have done their worst and the situation will continue to improve.

SMOKE OBSCURING SUN
AT LA CROSSE, WISCONSIN

LA CROSSE, Wis., Aug. 23.—So heavy is the forest fire smoke that the stores are using artificial light throughout the day. The smoke is rolling across the sun in dense clouds.

ROOSEVELT TALKED TO FARMERS OF NEW YORK

UTICA, N. Y., Aug. 23.—Following given to the life of the man of the is the substance of an address delivered here today by Col. Roosevelt before the Herkimer County Grange. It deals with the betterment of public life as related to the farmer. He said in part:

There are no two public questions of more vital importance to the future of this country than the problem of conservation and the problem of the betterment of public life. More-over these two problems are really interdependent, for neither can be successfully solved on condition that there is at least a measurable success in the effort to solve the other.

We are now trying to preserve, not for exploitation by individuals, but for the permanent benefit of the whole people the waters and the forests, and we are doing this primarily as a means of adding to the fertility of the soil; although, in each case, there is a great secondary use both of the water and of the forests for commercial and industrial purposes. In the same way it is essential for the farmers themselves to try to broaden the life of the man who lives in the open country; to make it more attractive; to give it every adjunct and aid to development which has been

The human side of the rural life problem is to make the career of the farmer and the career of the farm labor as attractive and as remunerative as corresponding careers in the city.

One reason why the great business men of today—the great industrial leaders—have gone ahead while the farmer has tended to lag behind the others is that they are far more willing and, indeed, eager, to profit by expert and technical knowledge—the knowledge that can only come as a result of the highest education.

From railroads to factories no great industrial concern can now adays be carried on save by the aid of a swarm of men who have received a high technical education in chemistry, in engineering, in electricity, in one or more or scores of special subjects. In just the same way the farmer should benefit by the advice of the technical men who have been trained in phases of the very work the farmer does.

During the last half century we have begun to develop a system of agricultural education, at once practical

WOMAN TO PLEAD "UNWRITTEN LAW"

New Orleans Opens Case To-day Where Mamie McLaughlin Urges This Plea

NEW ORLEANS, Aug. 23.—According to a statement by District Attorney St. Clair, the state will ask for the conviction of Miss Mamie McLaughlin of first degree murder on the charge of killing High Smith, a well-to-do man about town.

The trial opened today. The defense will be the "unwritten law." The defendant alleged that Smith betrayed her and then cast her off. When she saw him with another woman she shot and killed him. This is among the first cases where a woman pleads the "unwritten law."

PIRATES TELL OF TRAGEDY AT SEA

Story Told in Presence of Dead
Body of Murdered Captain Wood

SAN FRANCISCO, Aug. 23.—Led manacled before the dead captain who was murdered by his confederate, George Washington Wise, the confessed pirate, today retold the story of the daring plan to wreck and loot the steamer "Buckman," to the coroner's jury.

The occasion was the inquest into the death of Capt. E. B. Wood, who was shot down by "French" West, Wise's confederate. Wise showed no emotion at the sight of the captain's body.

KATE CLAXTON IN COURT OF JUSTICE

Says Husband Concealed Fact
of Divorce Obtained
In 1901

ST. LOUIS, Aug. 23.—Mrs. Katherine Elizabeth Stevenson, a famous actress who some years ago starred under the stage name of "Kate Claxton," filed suit yesterday to annul a divorce granted her husband, Chas. A. Stevenson, in 1901.

Mrs. Stevenson alleges that she was touring Europe in 1901 and that she did not know her husband had divorced her until April, 1910.

For eight years after the divorce was granted, she avers, Stevenson continued to visit her and to send her money for her support.

LOS ANGELES, Aug. 23.—Living in constant fear that Lloyd Paulham, who was killed several months ago by a fall into the elevator pit at the Exchange building, Third and Hill streets, will return to haunt him, Cecil Griffith, an elevator boy of 810 West Tenth street, has lost his mind and is at the Receiving hospital a raving maniac.

MAN FOUND WITH HIS HEAD CUT OFF

Lying Beside S. P. Tracks Near
Tropico—Thought to be a
San Joaquin Driller

LOS ANGELES, Aug. 23.—A man's head, cleanly cut from the body, was found beside the Southern Pacific tracks near Tropico this morning.

Examination of the body revealed a card issued by the Southern Pacific to Peter Starbuck. It is believed the man was a driller employed on the San Joaquin division.

PRESIDENT'S LETTER IS BOMB SHELL IN RANKS OF THE STANDPATTERS

Repudiates Shermans Action in Flouting
Roosevelt and Endorses Direct
Nominations-- Joy for Insurgents

NEW YORK, Aug. 23.—Leaving behind him the most muddled political situation in New York's history Col. Roosevelt left at 10 o'clock this morning in a special car for Utica, where he was scheduled to address the Herkimer County Grange.

In New York the politicians are trying to figure out today just how the political skein is tangled. They predict that Gov. Hughes and Col. Roosevelt, backed by President Taft himself, will control the Republican situation and that Roosevelt may yet be named chairman, Sherman being asked to retire.

Vice President Sherman was expected in New York today, but telegraphed his friends it was impossible for him to come. It is believed he will in a few days hold a conference with the New York Republican committee leaders and it is likely he will then make some statement following President Taft's letter to Lloyd C. Griscom, relative to the Roosevelt situation. Griscom openly predicts that Roosevelt will be temporary chairman of the convention unless Roosevelt forbids the use of his name. Griscom says it is likely the state committee will meet the night before the convention and attempt to oust Sherman and elect Roosevelt.

Sherman Labeled as Trickster

BEVERLY, Aug. 23.—As a result of President Taft's repudiation of Vice President Sherman's political methods, it is predicted freely that Sherman may not only resign as temporary chairman of the New York Republican convention, but also as Vice President. Taft's letter, though couched in gentle terms, is regarded as labeling Sherman as a "political trickster."

The administration followers firmly believe the letter will heal the alleged breach between Roosevelt and Taft, but they see no possible means by which the differences between Taft and Sherman can be adjusted.

FRIENDS WOULD HAVE MEETING
OF SHERMAN AND ROOSEVELT

UTICA, N. Y., Aug. 23.—Vice President Sherman and Col. Roosevelt may meet here tomorrow. Sherman left today for Watertown on business but tonight he will return to Utica, remaining until Friday when he starts on a speaking tour for the Republican congressional campaign committee. Sherman's friends are trying to arrange the proposed meeting between Sherman and Roosevelt.

Taft's Letter Was Bomb Shell

NEW YORK, Aug. 23.—A remarkable letter written by President Taft to Lloyd C. Griscom, president of the New York County Republican organization, who proposed Col. Roosevelt for temporary chairman of the state convention and who was defeated in the proposition, was made public last night. The letter has caused rejoicing in the progressive camp, as Taft directly endorses in his letter, direct nominations as outlined in the Cobb bill, defeated in both regular and special sessions of the legislature. The letter practically repudiates the leadership of Vice President Sherman, and naturally pleases Col. Roosevelt and his followers. Griscom gives out a statement with the letter, in which he predicts a reversal of the action of the committee in turning down Roosevelt's name, and that Roosevelt will be elected to preside over the state convention. Taft's letter dispels all question of conflict between himself and Roosevelt. The letter follows:

"Beverly, Mass., Aug. 20, 1910. "My Dear Mr. Griscom: As you know from your telephone conversations with my office, I have steadfastly refused to admit the propriety or necessity of the President's replying to newspaper statements which are not based on any act or authorized word of his and have no sponsor. I am entirely willing, however, to reply categorically to your telegram of August 19, which has (Concluded on Page Eight)

THUGS CAPTURED AFTER LONG CHASE

Phil Estes and Bill May Run
Down in Arizona for Murder and Robbery

SILVER CITY, N. M., Aug. 23.—Ending a sensational chase across New Mexico and Arizona, Phil Estes and Bill May were arrested today at Globe, Arizona, charged with being implicated in the recent Mogolon Mountain stage robbery, in which the stage driver was killed.

The men will be returned to New Mexico, where they will be tried immediately. The robbery occurred a fortnight ago while the stage was carrying bullion from the Socorro mines to Silver City.

LEGISLATURE IS TO MEET IN EXTRA SESSION

Gov. Gillett Issues Proclamation Today for Solons to
Meet on Sept. 6

DRAFT OF AMENDMENTS
SOON TO BE MADE PUBLIC

Purpose of Extra Session is to
Bond State for \$5,000,000
For Exposition

SACRAMENTO, Aug. 23.—Governor Gillett today issued a proclamation calling for an extra session of the legislature on Sept. 6 to adopt certain amendments to the constitution which will be submitted to the people, arranging to give financial assistance to the Panama Pacific exposition, proposed for San Francisco. Gov. Gillett has prepared the amendments for submission to the legislature, but said this morning the draft would not be made public until passed upon by Attorney General Webb.

Gov. Gillett's proclamation for the legislative session partly says: "The purposes of the extra session are for raising the sum of \$5,000,000 of dollars by the state of California in assisting in the establishing, maintaining and supporting of the Panama Pacific International Exposition to be held in San Francisco; providing for a state commission to have exclusive charge of the said sum of money, and to spend and disburse it for such purpose, acting in conjunction with the directors of said exposition."

INSURGENTS WILL DO SQUARE THING

WASHINGTON, Aug. 23.—The first indication that amicable relations between Nicaragua and the United States will shortly ensue came from the state department today when it was learned that General Estrada had unofficially informed the state department that he will make speedy reparation for the execution of Leonard Groce and Leroy Cannon, the American engineers shot at ex-President Zelaya's order. The Nicaraguan insurgents' victory is highly acceptable to diplomats here.

NINE COUNTIES CITED BY BOARD OF EQUALIZATION

SACRAMENTO, Cal., Aug. 23.—The State Board of Equalization today issued citations to nine counties in the state which must submit to having their assessments increased this year to bring them on the horizontal basis with the other counties of the state.

The counties, with the dates for the various hearings, are as follows: Alameda, Butte and San Joaquin, August 30; Riverside, San Luis Obispo, Santa Barbara and Santa Cruz, August 31; Los Angeles and San Francisco, September 1.

With the exception of Butte and San Luis Obispo counties, the others

were before the board last year among the thirty-two counties cited, eighteen of which were increased.

The increases this year, according to present indications, will not be great in any of the counties. Most of them have tried to come up to the standards set by the board, with the exception of Santa Cruz county, which did not meet the requirements. By having these counties adjusted to compare favorably with the other assessments throughout the state, there seems to be no reason for the state tax rate to be any higher this year than last, when it was 36.4 cents, the lowest in the state's history.

Summary of the Council Proceedings

1. Bids for street road roller taken under ad-
visement.
2. Committee on supplies authorized to purchase
barley hay at \$12.75 per ton.
3. Matter of paving Seventeenth street with oil
and gravel laid on the table.
4. Committee appointed to take steps toward
making French street of uniform width along entire
length.
5. Petition for paving portion of Eighth street
granted.
6. Bell Theater gets permission to remodel old
Blue Front livery building.
7. Board starts proceedings to pave several
streets with asphalt.
8. City Attorney is to call on Pacific Electric to
repair its tracks through central portion of the city.

which will result in the laying of as-
phalt paving on several important
streets of the city. The proposition
came up late in the meeting, and
there was no citizen present who
cared to make objection, but it is
probable that it will be necessary to
do at least a part of the work under
the Vrooman act.

Trustee Thompson offered a mo-
tion that the city begin proceedings
for the paving with asphalt of Fifth
street, from Broadway to Ross and
from Spurgeon to French; Third
street, from Spurgeon to French;
Sixth street, from Main to Birch;
Church, from Main to Birch. The
motion was adopted by the unani-
mous vote of the board. The city
attorney will prepare the necessary
resolution, and when this is present-
ed the property-owners interested
will have an opportunity to offer ob-
jections, if they see fit. It is under-
stood that a majority of the prop-
erty owners interested favor the im-
provement.

Bids for Street Roller

The meeting of the board last night
was called for the purpose of open-
ing bids for a street road roller.
There were five bidders, and ma-
chines of various weight and capaci-
ties were offered, the prices ranging

from \$2475 to \$3850, according to
weight. After hearing all the bids
the board voted to take them under
advisement until next Monday even-
ing, and in the meantime consider
which machine is best suited to the
needs of the city.

The committee on hay was author-
ized to accept the bid of Smiley &
Smith to supply 50 tons of barley hay
at \$12.75 per ton, and to purchase
oat hay from J. C. Crum at \$14 per
ton.

To Pave Seventeenth

A petition from J. B. Cox et al.,
for the paving of Seventeenth street
with oil and gravel, was brought up
and laid on the table. The petition
was presented some time ago, and
the property owners along the street
are entirely willing to make the im-
provements, but Mr. Cox explained
that after looking into the matter
they had concluded that it would be
inadvisable to lay the pavement un-
til proposed sewer and other pipes
were laid in the street. Therefore
the petition was laid on the table
with the understanding that it will
be taken up again when the property
owners see fit.

To Equalize French Street

Street Superintendent Ward and
Senator John N. Anderson were ap-
pointed a committee to take up the
matter of securing a uniform width
for French street, from Washington
to Seventeenth. As at present plat-
ted, in some places this street is fifty
feet, in others fifty-five and in
others sixty. It is the aim to secure
a uniform width of sixty feet. The
city will give a five-foot strip 720
feet long in front of the Lincoln
school, and some of the private hold-
ers have expressed their willingness
to deed the necessary land. It is
thought, however, that some land
will have to be purchased. The com-
mittee met this morning to begin
working out the details of the plan.

A petition was received from M.
M. Crookshank and Wm. Cochems
for permission to pave Eighth street
from French street to a point 125
feet west. The permission was
granted.

New Picture Theater

A petition was received from the
Bell Theater for permission to re-
model the building on the west side
of Main street, between Third and
Fourth, formerly known as the Blue
Front Livery. It is proposed to re-
model the building into a moving
picture theater, with a cement front
in mission style, metal ceiling, and
all modern improvements. The de-
sired permission was granted. The
building is the property of Wm. F.
Lutz, and the proprietors of the Bell
Theater have secured a long term
lease on it.

P. E. Must Repair Streets

The city attorney was instructed
to notify the Pacific Electric Railway
Co. to repair its tracks in the cen-
tral portion of the city. The com-
pany is expected to go over the pay-
ing on both Main and Fourth streets,
replacing in firm condition the gran-
ite blocks lining the rails, which
have in many cases worked loose.
The board adjourned until next
Monday evening.

Her Snowball

By MOLLIE K. WETHERELL

Copyright, 1910, by American Press
Association.

Eleanor Bartow was one of the many
young women who hammer on type-
writer keys all day, go to bed as soon
as they get home, arise in the morning
and begin hammering at the keys
again. The only hope she had for any-
thing better was in saving from the
meager salary received, accumulating
a pecuniary snowball and letting it
roll and roll till it was a great mass.

But the snow was very thin and dry
and cold and wouldn't pack. Again
and again she thought she had her ball
started, but it fell to pieces. She cal-
culated ahead so far as she was able
in the matter of necessities, but just
when she expected to put something
sizeable into her savings bank her
shoes would give out or she would
need a winter coat or some other ar-
ticle of clothing, and so it was a long
while before she had got together even
a hundred dollars.

Then her snowball began to pack,
and at the end of another year by dint
of the severest parsimony she had
doubled her capital. But just as she
was feeling elated that she would be
in receipt of \$8 a year which she
would not have to work for she was
taken ill, and nearly \$50 of her sav-
ings were paid out for doctor's fees
and medicines.

As soon as the plucky girl was well
she began again, and in another six
months her snowball had recovered
what it had lost. From that time
forward she did better. She not only
received an increase of salary, but her
funds were paying interest. There
were backsets, of course, but when
the semiannual figuring of interest
came round and she looked at her to-
tal it was always increased till at
length she had got together a thousand
dollars.

The receiving teller of the savings
bank where she kept her funds was a
nice looking young man, and always
when she made a deposit he smiled at
her and had something pleasant to
say.

One day there came a commercial
panic. Prices went down, down, down,
till securities could be bought in many
cases for half their intrinsic value.
One day when Eleanor went to the
bank to make a deposit her teller
friend said to her:

"There is an opportunity just now
for you to make some money. Take
what you have in here and buy a few
shares of some kind of stock. Choose
only what is regarded as sound, pay
for it out and out and put it away."

He gave her a list of shares he con-
sidered good and the address of a bro-
ker. The result of this advice was
that she put all the money she had in
the stock of a corporation which could
be bought so far below par that she
held what represented four times
what she had paid.

Several years passed. The panic
was over, and securities had reas-
sumed their normal value. One day
Eleanor concluded to sell the shares
she had bought during the panic and
put the money back in the savings
bank. She knew nothing of banking,
so when the broker offered her his
check she asked for currency instead.
He sent out the check, got it cashed
and paid her forty-five hundred-dollar
bills.

She went to the savings bank flushed
with the thought of meeting her teller
friend, but on reaching it saw another
face at the window. She was told that
the former teller had gone to the —
th National, around the corner.

The clock in the savings bank stood
at five minutes to 3 when Eleanor
started for the —th National bank and
at two minutes of 3 when she reached
the receiving teller's window. On seeing
Eleanor his face lighted with a smile,
but when she laid down her
treasure his expression changed.

"You're too late to deposit that to-
day," he said.
"Isn't the closing hour 3 o'clock?"
she asked.

"Yes, but I'm too busy to attend to it
today."

"Heavens! What can I do with it?
I shall be robbed!"

"Very well, I'll take it, but I haven't
time to make a deposit ticket for you
or give you a bank book. Come to-
morrow."

He took the money, and Eleanor saw
him put it in a safe. Then the next
depositor took his place and the next.
When the window was closed it was 3
o'clock.

The next morning Eleanor heard
people talking about the failure of a
bank. Her cheeks blanched when she
learned it was the institution where
she had put her snowball. She hur-
ried to the place, found the doors
closed and a crowd of melancholy
people standing about. Oh, the misery
of that moment! Hot tears were start-
ing from her eyes when she felt a tap
on her shoulder. Turning, there stood
her teller friend. Putting his finger
to his lips and walking away, he gave
her a look that told her to follow him.
She did so, and when they were alone
he said:

"Five minutes before you came to
the bank with your money yesterday
the directors decided not to open to-
day. I was told to give out no in-
formation till this morning. I tried to
send you away and failed. But you
made no deposit in the bank and have
nothing to show that you intended to
make one. Your money is in my own
private box. I will bring it to you this
evening."

And so he did. That snowball is now
over \$50,000, and the bank teller man-
ages it as the capitalist's husband.

VETERANS ENJOY COURT MARTIAL

Later Hears Story of Exciting Escape From Libby Prison

HUNTINGTON BEACH, Aug. 23.—A burlesque court martial served to amuse the veterans at the encampment yesterday morning. Cheering greeted a verdict of guilty against one old soldier, the charge being the appropriation of a big watermelon. The man was sentenced to wear a placard around his neck proclaiming his guilt. Another prisoner, charged with assault, was acquitted, although Mrs. Wiggs of the cabbage patch and all her ten children testified against him.

An escape from prison through a tunnel was an exciting representation during the afternoon, when Capt. James M. Wells of Glendale told of the methods by which he and 108 other prisoners escaped from the horrors of Libby. During the Civil War he was a member of the Eighth Michigan cavalry. Capt. Wells recounted the story of the tunneling through sixty feet of dirt with a single chisel and the hardship and hunger suffered before reaching the Union lines, only forty-three managing to avoid recapture.

At night Riverside post and corps presented an enjoyable entertainment, a prominent feature of which was an illustrated lecture on Abraham Lincoln by W. H. Ellis of that city. Vocal and instrumental music and recitations were given. Great expectations are entertained by the veterans of enjoyment tomorrow, when the camp will be under petticoat government and the famous bean dinner will be served to more than 1000 men in camp.

ESCONDIDO WANTS VISITORS FROM HERE

Secretary Willson, of the Chamber of Commerce, has received an invitation from Escondido asking that a delegation take in the third annual "Grape Day Festival" there on Sept. 9. An effort will be made to get up a party to make the trip.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Scott's Assessment Stands Approved

The assessment of Orange county property made by Assessor Scott this year is apparently satisfactory to the State Board of Equalization. The board met yesterday for the purpose of going over the assessments, and citing to appear representatives of those counties the assessment of which seemed to the board to be too low.

This morning county Auditor Lester received from Jeff McIlvaine, member of the state board, a telegram saying, "Orange county not cited to appear."

Of course, the board yet has the power to alter the Orange county assessment, but it is improbable that

any action of that kind will be taken. This is despite the fact that the county's valuation this year is one and one-half millions short of the figure at which it stood after the fifty per cent raise had been tacked on by the state board. The valuation last year with the 50 per cent raise was \$29,219,155, and this year it now stands at \$27,783,810.

The state board evidently considers that the assessment made on Orange county property is an equitable one as compared with the other counties of the state. The board cited nine counties, among them Los Angeles, to show cause why their assessment should not be raised.

THEY'RE ALL RIGHT

The Pomona Review, which said little on politics during the primary campaign, but which was, we think, rightly classed as a "regular," has this to say:

"Of course there are always some disappointments in the result of an election or primary. But this country has been built up on the principle that an honest majority rules and, so, all right-thinking people on this occasion bend to the will of the majority."

"That man is not a Republican worthy of his party affiliation, who will not give his loyal support to the ticket named at Tuesday's primaries. In Hiram Johnson, the party has put in nomination a man beyond reproach, and a candidate who really has ideas for the administration of this state. For five months Hiram Johnson campaigned in every part of California, and the wonderfully large vote he had when his campaign was over, shows how his issues appealed to the voters, and what a strong candidate he is."

"In A. J. Wallace, of Los Angeles, the Republicans have named the best businesslike candidate for lieutenant governor that we have had in years. He had his largest vote where he is best known. Anyone who heard Wallace's speech in Pomona, three weeks ago tonight, on the reforms that may be accomplished in the legislature, and the economies that may be made there, cannot but be glad that Mr. Wallace has been named for the lieutenant governorship."

TAFT WAS RIGHT

It begins to develop now why there was such strenuous opposition to the publicity feature of the corporation tax. As time goes by it will become more apparent that President Taft knew what he was about when he insisted on it. Here now is the Illinois Central Railroad that has been swindled by its officers out of \$5,000,000, and nobody knows how much more. Arrests have been made as well as civic suits started, and the further the investigations goes the worse it looks.

It is not to be supposed that the Illinois Central is the only road that has been grafted in this way, and a general overturning is in order. The point is that the people have to pay for all this swindling in order to make dividends possible. It's on the same basis as watered stock and overcapitalization, being charged up and collected in freights and fares, and in the last analysis they are charged up by the merchants and enter into the price of every article they sell. See?

The cholera scourge, having gained admission to Italy, becomes an ominous commentator on the march of events, it is claimed for this country, however, that our quarantine is so complete that there is not the least danger of its gaining a foothold here. But the occasion calls for extra sanitary precautions everywhere. It is said that in Russia, where the plague first made its appearance, in very unsanitary districts the death rate was 44 per cent, but in St. Petersburg, where the sanitary conditions were better, it was but 35 per cent. The Register undertakes to say that by enforcing the best sanitary regulations fully, any town can effectually fence out any plague that ever decimated the human family. But to do this requires an extraordinary amount of intelligence and backbone on the part of the municipal authorities.

It is easy enough to acquire a grouch, but hard to get rid of it. There are people who are carrying around old grouches that were never respectable even in their youth, and now if they could be faithfully portrayed they would be mere scarecrows. They would appear as squint-eyed, hump-shouldered, thin-chested, snaggle-toothed old frights, without even one leg to stand on. And yet they are nursed and petted and as much store set by them as though they were respectable, when the fact is they never had any right of live from the first. If all the old grouches of the world could be gathered together what an exhibition it would be, and what nuisances they would appear! Let us kill off all these old

The County Hospital SECRET SOCIETIES AND CLUBS

BY ONE OF THE INMATES

The dining table of the Orange Hospital measures exactly 3 feet in width by 6 feet and 23/4 inches in length. 5 to 6 inmates is about the average in summer seated and fed at table; in cold weather, rheumatism, la grippe and other winter ailments increase the eaters.

Although but few inmates are usually "carried" in the Hospital, it will doubtless cause Register readers surprise to learn that there are in existence and active life at the Hospital two clubs indigenous to the Hospital and two secret societies.

The clubs are "The Rest Easy Club" and the "Go-About Club"; the secret societies are the elsewhere, everywhere notorious "Sons of Rest" and "The Rest and Rot Society."

The Rest Easy Club is rather exclusive in its membership, the many requirements for admission being a clean record for having made an honorable living by real work and as a producer added to the wealth of the world by labor. The members of the Rest Easy Club are respected by all inmates with the respect that merit commands the world wide over; it is conceded to them that having worked hard and been unfortunate and "lost out," they are entitled to sympathy, respect and rest. The membership of this club is not only very exclusive but for reasons very limited.

The Do-About Club is composed of any and every inmate the Superintendent and begin life over again.

Did you notice that ten and one-half miles of the Panama canal is now in use—five miles or more at each end? So it will be seen that we are making progress and by and by the American continent will become two. Also the cost of living will be reduced by cheaper transportation. Likewise Orange county will be on the great world's water way, and will have a great harbor in Newport Bay, where the carriers by both land and water will meet. Surely things are coming our way.

When everything is at last fully explained as to how it did and did not happen; that is to say, when the candidate that "also ran" but will run no more during this campaign, has got done telling how it would have been different, etc.—yes when the time arrives when "all minds are at ease," so to speak, then let all hands please get in and boost Hiram into the chair of state.

The annexation of Canada to the United States as recently advocated by a member of Parliament, will be variously viewed in this country as well as in that. It might be objected to, for instance, on the score that this country is big enough now and getting more so all the time.

Let it be remembered that Roosevelt said that if he had anything to say for publication he would say it over his own signature. When you read, therefore, in the dispatches what he is said to have said, just smile and pass it by.

And now comes Charley Curry doing the congratulatory act and pledging his support to our Hiram. Good enough! Next!

HAPPY, HAPPY, USE TIZ

A Marvel for Sore Feet. Acts Right Off Sore Feet? Never Again After Using TIZ—

Good-bye sore feet, aching feet, swollen feet, sweaty feet, smelling feet, tired feet.

Good-bye corns, callouses and bunions and raw spots.

You've never tried anything like TIZ before for your feet. It is different from anything ever before sold. It acts at once and makes the feet feel remarkably fresh and sore-proof. TIZ is not a powder. Powders and other foot remedies clog up the pores. TIZ draws out all poisonous exudations which bring on soreness of the feet, and is the only remedy that does. TIZ cleans out every pore and glorifies the feet—your feet.

You'll never limp again or draw up

tendent of the Hospital "diagnoses" as physically able for a little light daily work to exercise them, improve their digestion, and enable them to convalesce as rapidly as possible and return to the business world to work. The one only by-law of the club is to do immediately without any "back talk" whatever the Superintendent orders.

The "Sons of Rest" are so well and unfavorably known in the outer world as to require no uncomplimentary mention here.

The Rest and Rot Society demand no requirement from candidates for admission except a sworn and habitual aversion to work.

For politic reasons good for Orange County tax-payers and the general good and well-being of the County Hospital, members of the Sons of Rest and the Rest and Rot Society are quite often drafted by the Hospital Superintendent into the Do-About Club, which is a promotion they do not seem to appreciate as they seldom come up to Do-About requirements, and either leave voluntarily or are excluded by the Superintendent from the Hospital.

No oath of secrecy is administered in the Hospital secret societies, but because the "Boss" and decent inmates are often discussed in sub-rosa undertones in them, they are in reality and in fact certainly secret conclaves.

A. SCREED.

ARREST OF PRIZE FIGHT PICTURES PROMOTERS

LOS ANGELES, Aug. 23.—On the charge of criminal conspiracy, a high misdemeanor, B. A. Bryne and R. L. Talbott of Los Angeles were arraigned yesterday morning before Judge McDonald of Pasadena. The two men were arrested by S. L. Browne, a detective attached to the district attorney's office. Constables Austin and Newell of Pasadena at Arcadia Saturday night after they had staged a motion picture exhibition of the Jeffries-Johnson fiasco.

The men were not allowed to plead and their preliminary hearing was set for Thursday afternoon at 2 o'clock.

The original bail of \$100 for both was made \$100 each and deposited to insure the appearance of the men Thursday.

There being no direct law against the display of motion pictures of prize fights the two men were arrested and are being held under a section of the penal code forbidding "An offense against public morals."

COUNTY FUMIGATORS WILL GET BUSY

The Board of Supervisors this afternoon granted Horticultural Commissioner Roy Bishop permission to expend not exceeding \$50 for repairs to the county fumigating outfit. Bishop explained that owing to the presence of parasites in many orchards there was a strong demand for the county fumigating outfit, and he was convinced that the amount necessary to put it in commission would be well expended.

And still they come! Evidently the boys of this town are not as anxious to work as the girls are. To one boy applicant for the job of keeping our studio trim and neat there have been a dozen girl applicants for our office work.

And this boy—Guy Buffington is his name—is a hustler, too, a real, wide awake courteous American boy, the successful kind. Guy is going to study piano, and surely if he does it with the same thoroughness that he scrubs floors, etc., he will be heard of.

All Wanted Beans

Today was "bean day" at the Southern California Veterans' Encampment at Huntington Beach, the ladies of the W.R.C. serving a bean dinner to all the old soldiers of every camp represented, and their families. There were probably 150 or more people from Santa Ana who went over to Huntington on the various forenoon cars, some of them expecting to stay during the remaining days of the encampment, which closes on Thursday next.

Among those who went on an early car were Mr. and Mrs. H. H. Bonney, Mr. and Mrs. T. J. Alexander, Mr. and Mrs. George F. Havens, Mr. and Mrs. D. L. Mitchell, Mesdames L. L. Kanouse, Lida Scammon, Marlam, Maggie Mitchell, Mrs. A. M. Murphy and son, Edmund Dale Murphy, Mrs. J. H. Campbell and daughter, Mrs. R. M. Wallace, daughter and son, Miss V. J. Brown, Mrs. Ida Mitchell, Mr. W. Winter, and N. S. Long of Tustin.

The Vanderma's Guest

Miss Ruby Rice, niece of Mrs. Asa Vanderma, who has been visiting all summer at the Vanderma home, departed yesterday for her home in St. Joseph, Mo. She was accompanied as far as Los Angeles by Mrs. Vanderma and Mrs. Newell.

Tomorrow Mrs. Vanderma will have the pleasure of welcoming another niece, Mrs. Nellie Baldrige of Pueblo, Colorado, who will remain until next Thursday. Mrs. Baldrige, who is the wife of an attorney of Pueblo, is spending some time with her parents in Los Angeles.

Band Concert Wednesday Night

Never have the out of door band concerts been more popular in Santa

Ana than this summer, every concert drawing out immense crowds. Director W. Frank Harris has shown much discretion in his choice of programs and the members of the Santa Ana City Band have given evidence of faithful rehearsals.

The program to be presented tomorrow night at Birch Park at 8 o'clock is one of the most attractive yet promised. All the numbers are of popular nature, and a happy hit was made in the selection of the medley "War Songs of the Boys in Blue," dedicated to the old soldiers now in encampment at Huntington Beach. The program follows:

March, Loyal and True (Rosenkrans.)

Selection, From Prince of Pilsen (Luders.)

Medley, War Songs of the Boys in Blue (Laurendeau.) To the Sixth Annual Southern California Encampment of the Grand Army of the Republic at Huntington Beach.

Marceau, Alita (Wild Flower) (Losey.)

Fantasia, Sweet Old Songs (Dalby.) Overture, Victoria (Holloway.) Finale, America (selected.)

Farewell Reception

In view of the near departure of Mrs. M. B. Connell and her daughter, Miss Ora Connell, for Santa Barbara, where Miss Connell will engage in teaching, the members of the First Christian church last night held a farewell reception for the two ladies, the affair taking place in the banquet room of the church. Mrs. Connell has been associated with the growth of this church almost from the beginning of its history, her husband having been one of its first pastors, to whom she was an able and enthusiastic assistant, so it was altogether fitting that the tribute of last evening should have been given her.

Following the serving of delicious refreshments words of appreciation of Mrs. Connell's good work were spoken by Mesdames R. L. Freeman and Gist; Messrs. T. O. Knights, H. C. Head, and Dr. Bruner. Mrs. Connell responded happily. The banquet room and table were beautifully decorated with roses, and there were about one hundred people present to do honor to Mrs. Connell, who will leave for Santa Barbara some time next week. Miss Ora will take her departure on Sunday next.

Visited Catalina

Mr. and Mrs. F. J. Rogers and party returned last evening from a week's sojourn in the tent city at Catalina. They had an extraordinarily good time, Mr. Rogers, like the other men in the party, being successful in fishing. One of the best catches was a big yellowtail that was so immense he could scarcely get it into the boat. Fishing and excursions to the various points of interest over the island, kept the party busy.

Others with Mr. and Mrs. Rogers were Mr. and Mrs. N. T. Edwards and family of Orange, Mr. C. E. Bowsby and mother, of Rialto, Mrs. S. Edwards of Santa Ana.

Refreshed Chevalliers

In preparation for the Odd Fellows encampment to be held here this

fall, the Chevalliers of Santa Ana Canton No. 18, have been drilling each Monday evening. The ladies of the Auxiliary Canton are intensely interested in the proper ambition shown by the "boys" of the Militant order and have in various ways demonstrated their interest. One of their pleasing methods is the furnishing of refreshments every fortnight, after the drill meetings.

Last night was one of the "every other week" nights on which this delicate attention of the ladies materialized, and delicious Dragon ice cream and other cooling refreshments were served by the ladies when the drill hour had ended.

Children's Flag Drill

Fifteen children were recently sent down to Huntington Beach by Santa Ana W. R. C. to "help out" on Children's Day of the Veterans' Encampment now in progress at that place. Each child was presented later with a bag of peanuts, and an American flag as a souvenir. In the drill all the girls carried flags of other nations. The drill was said to have been the best thing yet given at the encampment. To lend variety the boys carried toy guns.

The girls in the drill were Helen Kellogg, representing the Goddess of Liberty; Edna Mara, Olive Brown, Polla Kruger, Rose Kellogg, Louise Plummer, Mildred Howell, Dona Horton, Alma Lofland; the boys were Harold Kellogg, representing Uncle Sam, George Baker, Frank Kellogg, Dana Lamb, Kenneth Horton, Philip Murkett.

Tomorrow evening Sedgwick Post and Corps of Santa Ana, will furnish the entertainment for the encampment. It promises to be the best ever. A large delegation will go from here. Splendid entertainments have been given every night.

Confederate Veterans Election

On September 2 the annual election of the Pacific division of the United Confederate Veterans comprising the states of California, Nevada, Arizona and New Mexico, will be held in Los Angeles. It is expected that Major General William Cole Harrison, now commanding the division, will be re-elected. On September 3 the annual picnic of the division will be held at Sycamore Grove, between Los Angeles and Pasadena, and a large attendance is expected. It may be taken for granted that there will be a jolly time, as that is always the case when the old boys and their families get together.

A number of Santa Ana vets will take in the election, vote early and often, and afterward take in the dinner.

EAST END SCRAPPERS LAND IN BASTILE

Dick Covington, well known in police annals, Tom Crane and A. A. Franke, were arrested at Stafford and Custer streets yesterday afternoon by Officers Cervantes and Heard on a charge of disturbing the peace. It is alleged that the three were engaged in a drunken row, and that they disturbed the vicinage to a very large extent. Franke is out on \$25 bail to appear before Justice Smithwick next Friday, and the other two, in default of the necessary bond, are in jail.

PERSONALS

Prof. G. E. Hadley, formerly at the head of the commercial department of the Santa Ana High School, has been re-elected to a similar position in Long Beach, where he has been for several years.

Mrs. J. M. Creighton and son Carl are here from Phoenix, Arizona, visiting J. A. Dort of Tustin. Mr. Dort and Mrs. Creighton are cousins.

Chas. R. Schenck and family leave today for Laguna Beach for two weeks. Mrs. Schenck's cousin, Mrs. Louise Stratton, and daughter Elizabeth, of Highland Park, will be with the Schencks at the beach.

Mr. and Mrs. Frank Harris spent today at Long Beach.

Raymond Freeman and W. W. Vest left yesterday for Bakersfield and other points further north in the state, their idea being to see something of the country and to look for a good opening in the electrical line, at which both are experts.

Miss Shirley Thomas went to the city this morning.

Miss Beulah May was a visitor to Los Angeles today.

Miss Emma Petersen went to Los Angeles this morning, spending the day in the city.

Supervisor Tom Talbert has gone to Elsinore Hot Springs for a fortnight's stay.

Miss Mae Patton has gone to Santa Barbara to spend her vacation of a week.

James McFadden, who has been ailing for some time, went to Arrowhead Hot Springs today for a course of treatment. Mr. McFadden's many friends will hope for his speedy recovery.

Mr. and Mrs. L. Walkinshaw and little daughter, Anna, of Orange, and Mrs. McGaffey and children returned today from a week's outing at Newport Beach.

Misses Lizzie McCarter and Dora Milligan returned yesterday from a few days' visit with Reta McGaffey at Newport.

PASADENA LOSES HALF OF DOG POPULATION

PASADENA, Aug. 23.—Pasadena has lost half of its population of dogs. Last year at this time the city carried on its dog license books the record of 1046 canines. It now has 552 dogs, which have marched up by proxy and paid to live in Pasadena's salubrious climate.

LOVED FOR HIMSELF.

"Yours always—Marion."

The photograph on which the words were written stood upon the mantelshelf.

The young man who read the inscription aloud was described in Debbert as Sir Anthony Elliot, Bart., grandson of the late Sir Robert Elliot and fifth baronet of his name.

"Marion" was Lady Marion Allard, the daughter and sister of an earl, a society beauty and one of the richest heiresses in England. They were to be married in the spring, and he was on the point of starting in order to join the party at her country home.

A servant tapped at the door and entered.

"If you please, Sir Anthony, a gentleman of the name of Crosse wants to see you."

"Crosse? I don't know the name. What is his business? Did he say?"

"Says he's come all the way from New Zealand on purpose to speak to you."

He was shown in.

"Sir Anthony Elliot, I presume?" he queried.

"Yes," said Tony. "Will you take a chair? I am rather pressed for time." "The business will not take me long to explain," he said. "In fact, it can be told in two sentences. I am here to inform you that you have no more right to the name you bear than I have. Your father was a carpenter, and he sold you to Mrs. Elliot for a five pound note."

There was a moment of silence. Tony's cigarette went out. He threw it into the grate.

"You make a very strange assertion," he said slowly. "Will you kindly explain yourself?"

"With pleasure," replied Crosse. "Your reputed father died a year after he married, quarreled with his father and became a sheep farmer in New Zealand. I was his next neighbor and knew all about him. Three weeks later his only child died too."

"Then Mrs. Elliot adopted a workman's baby and left the place. I didn't understand her motive at the time. I comprehended when I learned that the late Mrs. Elliot had hated her brother-in-law because she believed he had set the old baronet against her husband and herself."

"Her desire for revenge was so intense that on the death of her own child she determined to substitute another that the man she hated should not fall heir to the title and wealth."

Crosse handed him two papers. "You can have a hundred more proofs if you like to go out to Queensland," he added briefly.

"And your object in traveling thousands of miles on a matter which does not concern you? I presume you have a motive?"

"Certainly," said Crosse calmly. "I am a poor man and no longer young. I want comfort and security for my old age. Give me \$2,500 a year for life and you can enjoy your fortune in peace and marry your fine lady. I'll hold my tongue."

Great beads of perspiration stood on Tony's brow. His head swam. Then the carpenter's son pulled himself together, threw his head up and peremptorily ordered Crosse out of his rooms. But when he was alone a cry of passion and despair rose from the bottom of his soul.

He wrote to Marion that important business would detain him in town for a few days and cabled to a globe trotting friend.

The answer to his message came, and that afternoon at dusk she greeted him in the great hall of the old country mansion.

"We shall have an hour or two alone. But how white you are, Tony!" she added quickly. "There is something wrong. What is it?"

"You shall know directly, Marion." He took her left hand in both his own and looked at the flashing hoop of diamonds he had placed there. "I have something to tell you—something that will change the current of our lives. But before I tell you I should like to be with you just for half an hour to enjoy the sight of your face, the sound of your voice. My sweetheart, I want to live for a little while before the darkness falls. May I?"

"I don't know what it all means, but of course I'm ready to do whatever you wish, Tony." There was a pause presently, and she touched his sleeve. "Tony, your luggage? Didn't you bring any?"

"No," he said slowly. "I am not going to stay. You will understand when the clock strikes."

"Will it never strike, Tony?" The clock answered the question for itself. "Lady Marion Allard," he said. "I give you back your freedom. Recently I learned that I have no right to the name I bear. Today the news was verified by cable. It is sufficient for you to know that my father was a carpenter in a colonial village and that my name is not Sir Anthony Elliot at all, but just Anthony Brown."

"Is that all?" she cried. "Is that all? You frightened me to death. I could not imagine what terrible thing had happened."

"You don't seem to understand," he said. "I'm a pauper, a nobody, a— I'm Anthony Brown!" "Well, are you any the less a gentleman by instinct and education? Are you any the less the man I love, the man of all others whom I have chosen to love, honor and obey till I die? Would you refuse to marry me if my history were similar to yours? Of course you would not. Oh, Tony," she added, breaking into happy smiles, "you—you—idiot! You dear boy!"

A Japanese Spy

By FRANK MARTINDALE

Copyright, 1910, by American Press Association.

During the wars in Japan between the adherents of the mikado and the shogun the mikado's troops were besieging a fortress which both sides wanted.

But there is one matter of importance concerning it that is pertinent to this story. The mikado's army was very small, and a force of the shoguns was coming up to the relief of the besieged. This force was expected within a week. The success of the mikado depended upon how long his enemy's supplies would hold out. If there were enough for but a few days the besiegers might remain and reap the benefit of their labors. If the provisions should last longer than that they would better be off before the relief force came up or they might be overwhelmed by a superior army.

To know what supplies the defenders of the fortress had would be of inestimable value to the besieged. If meant a possible possession of the point of attack, and it meant a prevention of a possible annihilation of the emperor's army and the probable loss of his cause.

The devotion of the Japanese people under such circumstances is a wonder. It is that devotion which enabled them to force a peace upon the Russian bear that had threatened to "walk all over" their little island and take possession of it. It is that devotion that has enabled them to protect themselves while cultivating the commercial methods of western civilization.

There came a noble to the mikado and said to him:

"O mighty emperor, it is on account of your majesty's virtue that I feel an impulse spring up within me. My ancestors are looking down upon me and smile pleasantly upon me as I yield to the inspiration. I will disguise myself and obtain admittance to the fortress. There I will observe for how many days your enemies are supplied, and I will return and advise you of the fact."

"I am well pleased," replied the emperor, "that my virtues have produced in you such a worthy motive. You have my permission to go into the fortress and observe the supply of food our enemies have and return to me and tell me. I will request the shades of my own ancestors to watch over you, but if you die in your attempt you will have the satisfaction of knowing that both mine and your ancestors will welcome you in spirit-land."

So the noble prostrated himself before his majesty and turned and went away. That same day a man dressed as a shepherd found access to the fortress and went among the granaries and found them nearly empty. There was food enough to last but two days. The shepherd, satisfied with the information he had gained, was about to leave the fortress when one who had known him before the war came on recognized him. The spy was seized and hurried before the shogun.

"This man," said his captor, "is a noble who supports the mikado for the position to which your majesty is entitled. He has been among us in this raiment of a shepherd and knows just how many days' supply we have on hand. What shall we do with him?"

"Crucify him," said the shogun.

With that they were leading the spy away to crucify him when the shogun called to them to bring him back.

"If you will go to the wall," he said to the spy, "and tell your people that we have supplies to last several weeks I will spare your life."

"That I will do," said the other. "My ancestors call to me to stand firm and they will receive me at my death joyfully, but I have a wife and children in the mikado's camp, and I am loath to leave them for my ancestors, whom I reverence greatly, but have never seen. I am so weak as to prefer my wife and little ones."

"Go, then; tell them what I have said to you, and I will in time return you to those you love."

The spy was conducted to the wall and stood upon it, the soldiers of the shogun keeping in the background. He signaled the besiegers to come near that he might speak to them. So they all drew as near as they dared, the family of the spy coming with the others. The spy stood looking at them benignly as they drew near and saw his wife and little ones looking up at him anxiously, knowing that he must have been discovered by the besieged people and that a great crisis was at hand.

The shogun sat in the center of the fortress, rejoicing that he had found a means of deceiving his enemies and sending them off when near the accomplishment of all they had been so long striving for. About him stood his soldiers waiting to hear the spy tell his people of the abundance of supplies there were in the fort.

Then the spy raised his hand for silence and said to them:

"O my people, I have examined the supplies that there are in this fortress, and there are but enough to last two days."

A thousand spears were hurled at him, and he fell on the wall.

"O my people," exclaimed the mikado, "our ancestors are taking him to their bosoms."

Then he gave orders to move on the fortress, and the defenders, being discouraged, gave way before them, so it was not long before the conquered people were sent to the bosoms of their own ancestors.

IN DESPERATE DASH OVER MOUNTAIN AND PLAIN

WHITMAN, IN REO 4, SETS LOWEST OF ALL TRANS-CONTINENTAL RECORDS

With a new transcontinental record to shoot at in years to come, it is figured by automobile dealers that there will be more cross-country travel in an effort to lower the record set up by L. L. Whitman in a four-cylinder Reo.

From New York to San Francisco in 10 days 15 hours and 12 minutes is a mark that is not an easy thing to set, nor will it be an easy one to break, but that attempts will be made to lower it is assured, for already several of the larger eastern factories have turned their attention to the long ocean to ocean grind.

The former record of 362 hours and 12 minutes for the run from ocean to ocean was clipped to 255 hours and 12 minutes by Whitman, whose run is something that will go down in the history of motoring affairs as a phenomenon which only much shooting and favorable luck and weather can equal.

To knock off 107 hours of the transcontinental record is something that probably no other driver in the world could do unless there was much practice and considerable "holer" before hand about the performance to be expected.

Whitman quietly went about his business and tore into the record for such a gain that all the more credit is being given him.

LACY RESIDENCE DAMAGED BY FIRE

Firemen Make Quick Run and
Soon Conquer Dangerous
Blaze

The residence of Alex Lacy, at the southwest corner of Sixth and Bush streets, was damaged to the extent of about \$500 by fire which broke out at 1:30 this morning. The fire started in the screen porch at the rear of the building, and is supposed to have been caused by crossed electric wires. The porch was badly damaged, and the flames communicated to the pantry adjoining, burning some of the furniture there.

The building is the property of A. C. Curtis. The Lacy's had no insurance on their property. The fire department did splendid work, responding quickly to the alarm and overcoming a fierce blaze with very little damage to the house from water.

An Oversight

An old German maker of violincellos had just finished one which he considered to be a particularly fine piece of work, and he proudly lifted it up for a friendly musician who was standing near him to admire. He had just called attention to the beautiful lines when all of a sudden something rattled.

"Ach," he exclaimed, "I have left der glue pot inside!"

Do You Think For Yourself?

Or do you open your mouth like a young bird and gulp down whatever food or medicine may be offered you?

Dr. Pierce's Favorite Prescription is a medicine of known composition, sold by druggists for the cure of woman's ills.

The makers of Dr. Pierce's Favorite Prescription, for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible endorsement of the leading and standard authorities of the several schools of practice, are perfectly willing, and in fact, are only too glad to print, as they do, the formula, or list of ingredients, of which it is composed, in plain English, on every bottle-wrapper.

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, narcotics, harmful, or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famed medicine is advised.

No other medicine for woman's ills has any such professional endorsement as Dr. Pierce's Favorite Prescription has received. In the unqualified recommendation of each of its several ingredients by scores of leading medical men of all the schools of practice, is such an endorsement not worthy of your consideration?

A booklet of ingredients, with numerous authoritative professional endorsements by the leading medical authorities of this country, will be mailed free to any one sending name and address with request for same. Address Dr. R. V. Pierce, Buffalo, N. Y.

FAMOUS GIANTS.

John Middleton the Tallest of the More Modern Ones.

The record of men remarkable for their height commences at an early period of the recorded history of the world, for in the Old Testament Og, king of Bashan, is mentioned as using a bedstead nine cubits long, which is about sixteen and a half feet. Later we read of Goliath of Gath, slain by David, whose height was "six cubits and a span." The Emperor Maximian was of vast bulk, according to some measuring over eight feet. Then Pliny writes: "The tallest man that has been seen in our age was one named Gabara, who in the days of Claudius, the late emperor, was brought out of Arabia. He was nine feet nine inches."

Of more modern giants there was John Middleton, called the child of Hale, who was born in Lancashire, England, in 1578. He was nine feet three inches tall. His hand measured seventeen inches from the wrist to the tip of the middle finger, and the palm was eight and a half inches in breadth.

Patrick Cotter, the "Irish Giant," was born in 1761 and measured eight feet seven inches in height. His hand to the tip of the middle finger was twelve inches, and his shoes were seventeen inches long.

Charles Byrne, called O'Brien, was eight feet four inches. He died in 1783, and his skeleton is in the museum of the Royal College of Surgeons.

Big Sam, porter of the Prince of Wales, afterward George IV., at Carlton palace, was nearly eight feet tall.

M. Brice, a native of the Vosges, seven feet six inches, exhibited himself in London in 1862-3.

Robert Hales, the "Norfolk Giant," was seven and a half feet tall and weighed 452 pounds.

Chang Woo Gow, a Chinese giant, was seven feet eight inches when nineteen years old, when he was exhibited in London in 1865. Grown to eight feet, he exhibited at the Westminster aquarium with Brustay, a Norwegian giant, seven feet nine inches, in June, 1880.

Captain Martin Van Buren Bates of Kentucky and Miss Ann Hanen Swann of Nova Scotia, each about seven feet tall, exhibited in London and were married at St. Martin-in-the-Fields, June 17, 1871.

Marian, the "Amazon Queen," born in 1866, was eight feet two inches tall when exhibited in London in 1882.

Joseph Winklemaler, a native of Austria, eight feet nine inches tall, exhibited in London in 1887.

Elizabeth Lyska, a Russian, was six feet eight inches when exhibited in London in 1893 at the age of twelve.—Boston Globe.

Speed Statistics.

A gentle wind travels about five miles an hour, a high wind about thirty to forty-five miles an hour, a hurricane eighty to a hundred miles an hour. The velocity of the earth on its own axis exceeds, it is estimated, 1,000 miles an hour. The velocity of the earth around the sun is calculated to be 66,000 miles an hour, and the velocity of the moon is calculated to be 2,273 miles an hour. Sound travels through dry air at the rate of about sixty feet a second; through water at the rate of about 240 feet a second; along steel wire at the rate of about 17,130 feet a second. Electricity is said to travel along wires above ground at the rate of about 22,360 miles a second. Light travels at a velocity estimated by astronomical observation to be about 186,770 miles a second.—London Standard.

Ancient Paper Money.

Marco Polo, the celebrated Venetian traveler, was the first to announce to Europeans the existence of paper money in China under the Moguls. The fact has induced the belief that the Moguls were the originators of it. But in the history of Tchingiz-Khan of the Mogul dynasty in China, published in the year 1739, the author speaks of the suppression of the paper money which was in use under the dynasty of the Sung, who reigned in China previous to the Moguls, and he also mentions a new species of notes which were substituted for the old in the year 1264.

Motherly Encouragement.

"Mother," she said, with a little catch in her voice, "I'm beginning to be almost afraid the count wants me only because he thinks he can get a lot of father's money with me."

"My dear child, don't worry about that. Your pa is enough of a business man to get him at the lowest possible figure, and the title will be just as much yours if he marries you for money as it would be if he took you because he worshipped the ground you walked on."—Chicago Record-Herald.

WHITTIER WOMAN AT CENTURY MARK

Mrs. Sharpless Celebrated
With Fifty Descendants
Yesterday

WHITTIER, Cal., Aug. 23.—Mrs. Lydia Heald Sharpless, who lives with her son, Benjamin Sharpless, at No. 116 South Washington avenue, celebrated her 100th birthday yesterday. At noon all her descendants, about fifty, gathered at the park where a dinner was given in her honor.

Afterward a reception was held in the Friends' church of which Mrs. Sharpless has been a member all her life. The large birthday cake bore 100 candles.

Mrs. Sharpless is the youngest of nine children and the only one living. Her father, who was a civil engineer, lived to be 101 years old and did some surveying after his 100th birthday.

Mrs. Sharpless walks up and down stairs alone and to church every Sunday morning, and aside from the fact that her hearing is slightly impaired, she has all her faculties and is in perfect health. Her memory is good and she repeats poetry learned after her ninetieth birthday.

She was married to Albert Sharpless in 1836 and they lived together 63 years. Mr. Sharpless died 11 years ago. There are three children, fourteen grandchildren and twenty great grandchildren living.

LOS ANGELES PRODUCE MARKET

Receipts of potatoes yesterday morning were the largest of the year—5545 sacks, or nearly 17 cars. Much of the stock moving at the present time is not for local distribution, but going right through to Oklahoma, Texas, Nevada and many other points. The demand from these parts of the country is very largely accounted for by the fact that the crop through Mississippi, Missouri and Kansas is short by many thousand bushels. With this condition prevailing, the market here will have considerable strength throughout the season. Highland Burbanks are the chief shipments. Onions are also in big demand from the same territory. Prices on onions are firming up again on account of very light receipts in the past few days. Yesterday only 22 sacks were reported in.

The market on eggs was not very active. Receipts over Sunday were only 171 cases. There was little or no demand for storage eggs and the few eastern arrivals were distributed quickly.

Cooking butter was in good call. There is a long demand on all second grade butter for cooking and baking purposes. Receipts of butter yesterday were only 15,388 pounds. The Elgin market was quoted another cent up, according to reports received here at noon and this gave added strength to the local butter prices, and the possibility of an immediate advance.

Cheese receipts were 911 pounds. The smallness of arrivals from the north had its immediate effect on full cream which advanced from 16½ and 17 to 17 and 17½ cents a pound. Eastern dais was quoted at 19½ cents. Sweet potato receipts were 69 sacks. There was a decided drop in figures and the very best sweet potatoes on the market were obtainable at \$2.75 per hundred. Quotations were marked as low as \$2.25.

The first of the pink bean crop from local fields is arriving. Prices on pinks are beginning to sag although no actual breaks have been recorded. The market on whites is very weak owing to the fact that there is considerable of last year's crop still on hand.

Bellefleur apples were down considerably. By the car they were offered as low as 95 cents on fancy four tier stock. Receipts were 645 boxes. Other apples are moving well. The demand for figs is very good and prices are down below the dollar mark, on all grades and varieties. Muscatel grapes were up a few cents a box. Concord were down and Tokays were also lower. Peaches and plums were unchanged. Cantaloupes brought as high as \$2.75 per crate.

INDEPENDENT CANDIDACY IS ANNOUNCED

ONE MORE SLIGHT FOR UNCLE JOE CANNON

Is Given No Dates for Speech
Making in the Coming
Campaign

WASHINGTON, Aug. 23.—Another step in the reported attempt of the administration to relegate Cannon to a less important place in the councils of the Republican party, it was learned today, has been made by the Republican Congressional campaign committee. For the first time in many Congressional campaigns Cannon has not been assigned speaking dates by the committee. Republican leaders say Uncle Joe's services are not wanted, because of his avowed attitude on insurgency, which he is prone to express in his speeches. His attitude, they declare, in his addresses in Kansas, and the results there are sufficient to show the leaders that insurgency is a good thing to let alone.

It is reported that Taft and his political advisers after studying results in Kansas, Iowa, California and other states, have concluded that the less said about insurgency the better. The campaign will be a "tread lightly" affair, as far as insurgency goes, none of the regulars desiring to force the issue any further than it has already been stirred up.

That Speaker Cannon cannot take the stump without expressing his views on the Republicans who did not conform to his idea of party regularity, is so firmly believed that the Congressional committee will not put him on the stump. Politicians have forecasted the result of the speakership fight in the next Congress, following the announcement of Representative Longworth that he will not vote for Cannon believe that another presiding officer will be

chosen. The desertion of Congressman Smith of Iowa, who is a candidate for Speaker, himself, and of Congressman Humphreys of Washington, it is believed indicates that it will be impossible for Cannon to be elected.

ROOSEVELT TALKED TO FARMERS OF NEW YORK

(Continued from Page One)

and scientific, and we must go on developing it.

The country church should be made a true social center, alive to every need of the community, standing for a broad, individual outlook and development, taking the lead in work and in recreation, caring more for conduct than for dogma; more for ethical, spiritual, practical betterment than for merely formal piety. The country school should be made a vital center for economic, social and educational co-operation; it is naturally fitted to be such a center for those engaged in commercial farming, and still more for those engaged in domestic farming for those who live on and by the small farms they themselves own.

Above all, the conditions of farm life must always be shaped with a view to the welfare of the farmer's wife and the farm laborer's wife as to the welfare of the farmer and the farm laborer. To have the woman a mere drudge is at least as bad as to have the man a mere drudge. I haven't the slightest sympathy with any movement which looks to excluding men and women for the performance of duty and fixes attention only on rights and not on duties. The woman who shirks her duty as housewife, as mother, is a contemptible creature; just as the corresponding man is a contemptible creature.

But the welfare of the woman is even more important than the welfare of the man, for the woman is the Atlas who bears aloft in her strong and tender arms the destiny of the world.

She deserves honor and consideration such as no man should receive. She forfeits all claim to this honor and consideration if she shirks her duties. But the average American woman does not shirk them; and it is a matter of the highest obligation for us to see that they are performed under happy conditions.

YOU CAN'T BET ANY MORE ON BASEBALL

LOS ANGELES, Aug. 23.—The city council this morning passed an ordinance doing away with oral betting. The man who says "Bet you he fans," etc., at a ball game is liable to arrest. The law is aimed to prevent baseball gambling chiefly.

HAUPT SUCCEEDS DIXON
LOS ANGELES, Aug. 23.—Lieut. Robert S. Haupt was last night appointed captain of police to fill the office recently vacated through the dismissal of Captain Charles E. Dixon.

Haupt stood second on the civil service list. To Haupt's personal friends at the police station the appointment did not come as a surprise, for several of them stated Sunday that Haupt would be the next captain.

MAYOR GAYNOR IS NOW ABLE TO WALK

NEW YORK, Aug. 23.—Mayor Gaynor had a good night's rest and today he seemed stronger than ever. The mayor jokingly remarked that now that he had stolen a march on his doctors and walked a few steps, he hoped to indulge in his favorite exercise every day.

PICTURE THEATRE FOR MAIN STREET

Owners of "Bell" Establishment Will Remodel Old Blue Front Barn

Manager Fowler, of the Bell Theater, now located in the Medlock building at Fifth and Main streets, has practically closed a deal with Wm. F. Lutz for a long-term lease on the building formerly known as the Blue Front Livery Barn, on the west side of Main street, between Third and Fourth. It is the intention of the Bell Theater management to remodel this into a moving picture house which will be the equal of any on this coast. A new front will be put in, built in mission style, and the building will be made two stories. On the ground floor are to be rooms for a confectionery and barber shop, besides a large lobby, with cement floor, for the theater. On the second floor there will be some office rooms, and also quarters for the theater orchestra and performers. The operating room, in which the films are handled, is to be of sheet steel, lined with asbestos, making it absolutely fire-proof. There will be numerous emergency exits. The auditorium is to have a seating capacity of 900, making it one of the most commodious theaters in the county. Work on the renovation will commence in the near future.

DESPERATE DEED OF A DESPERATE MAN

SAN BERNARDINO, Aug. 23.—Fearing that ill health would soon deprive him of the ability to earn for his family, Paul Joseph Marks, carpenter and cabinet maker, who has a shop at 306 Third street, poisoned his two younger daughters and himself at their home in the Sergeant place, at Sterling avenue and Mill street yesterday morning shortly after 9 o'clock, and to speed his own death he sent a bullet into his heart, dying beside the younger of the two children, whose body he had carried into the front room of their little home.

Marks, who was a widower, lived with his four children, three daughters and a son. He had formerly been a man of considerable means, but reverses left him dependent upon his trade for a living, over a year ago he realized that ill health was sapping his strength and as he continued to feel himself gradually losing ground he commenced to worry for fear he would die and leave his two youngest girls, Erna and Louise, ten and seven years of age respectively, in poverty and to the care of strangers.

"I'll kill myself and take the babies with me," was his threat, made on several occasions, but the older children did not take it seriously, believing that his affairs would soon be in better shape and with returning success he would again be the same considerate and loving father he had always been.

The older of the girls went to Los Angeles some time ago, and her failure to return added to her father's worry. He made one visit to Los Angeles seeking her, and Saturday went to Yuma, Ariz., returning yesterday morning.

ASKED FOR 15-YEAR LICENSE FOR HOTEL

Ocean Park Will Hasten to Grant Request of Big Copper Syndicate

OCEAN PARK, Aug. 23.—The city trustees last night received from the Oil-Copper Syndicate an application for a fifteen-year liquor license. This is wanted for the proposed \$250,000 hotel that is to be built by Messrs. Guthrie, Barrett, Burmister and their associates between Marine and Navy street on the ocean front. Under the present ordinance a license cannot be granted for that number of years, but the city attorney was given instructions to prepare amendments to the ordinance so that the license may be issued as requested.

DR. CAMPBELL DIES AT SAN BERNARDINO

Dr. Chalon Guard Campbell, one of the first of San Bernardino's physicians and one of the last of the pioneer medical men, died yesterday afternoon at his residence, after a lengthy illness and one that has been slowly weakening him. Dr. Campbell was the father of Mrs. J. W. Driver, well known in this city.

He was a brother of Judge John L. Campbell, and leaves several other relatives.

PRESIDENT'S LETTER IS A BOMB SHELL

(Continued from Page One)

Just arrived and which is as follows: "I am informed and believe that several members of the New York Republican State Committee who voted for Vice President Sherman over ex-President Roosevelt, as nominee for State Chairman of the state convention, were influenced by statements that the Vice President's name, was presented to defeat Colonel Roosevelt in accordance with your wish. A member of the State Committee declared to me before the meeting that Mr. Sherman's candidacy had been arranged with you by telephone the previous day. Effort has been made to create an impression that you favor a particular candidate for election as State Chairman. I want you to know that the injection of the name of a high member of your administration into a factional conflict has produced a most complicated situation, and the absence of any authoritative information as to your attitude is seriously misleading many Republicans and impairing a movement for progressive party leadership and clean government in this state. I know you desire us to have a fair field, and hope that this may be made clear to the public."

"The suggestion that I have ever expressed a wish to defeat Mr. Roosevelt for temporary chairman of the convention, or have even taken the slightest step to do so, is wholly untrue. I never heard Mr. Sherman's name suggested as temporary chairman of the state convention until I saw in the newspapers of August 16 that he had been selected at the meeting of the committee. When you called at my house Saturday evening, August 13, you told me that Mr. Roosevelt intended to go to the convention as a delegate, and you suggested, incidentally, his being made temporary chairman, a suggestion in which I acquiesced. It did not occur to me that anyone would oppose it. This was the first time the subject of the temporary chairmanship was mentioned to me by anyone. You did not ask me to take any action whatever with respect to it. After a full discussion of the New York state situation I drafted, in your presence, the following telegram and sent it to Mr. Sherman:

"Beverly, Mass., Aug. 14, 1910.
"Hon. James S. Sherman, Vice President, Utica, N. Y.:

"Please say to Ward and Woodruff that I have had a long conference with Griscom. He confirms my judgment already expressed to you, that the whole situation in New York may be saved without any humiliation to anyone and with victory for the party, by a full conference with Mr. Roosevelt and reasonable concessions with reference to platforms and candidates.

"The thing of all others that ought to be avoided is a controversy in the convention. I am told by Mr. Griscom that such a conference with Mr. Roosevelt might conveniently be had, and would be welcomed by him, before the state committee meets on Thursday. Hope you will be able to report satisfactory solution when you come on Wednesday.

"WILLIAM H. TAFT."

"On the afternoon of Monday, August 15, Mr. Sherman telephoned me from New York and for the first time apprised me of the fact that there was a proposal to oppose Mr. Roosevelt for the temporary chairmanship, and that with Mr. Root's name. No other name than Mr. Root's was mentioned. I protested against the idea of a contest on such a matter, peremptorily declined to be drawn into a fight against Mr. Roosevelt, and again renewed, by urgent advice, that there be prompt and full personal conference with Mr. Roosevelt before the committee meeting, with a view to securing harmony and victory for the party.

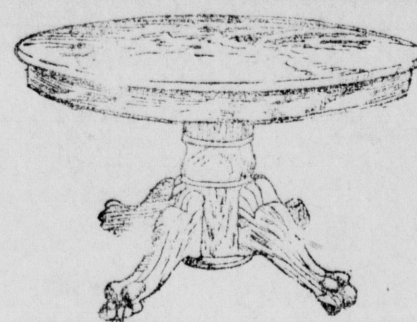

"Mr. Sherman called upon me here on the seventeenth instant to meet an engagement of a week's standing made with him and Mr. Loudenslager to discuss the congressional campaign book. Mr. Loudenslager was prevented from coming by an illness. During the conference with Mr. Sherman I told him I deplored the result of the meeting of the New York state committee, because unless the break was repaired it meant division between New York Republicans and probable defeat. Upon leaving me Mr. Sherman agreed to go in to a conference with Mr. Roosevelt, provided he were invited to do so, with a view of adjusting the situation, if possible, even at that late date. Mr. Nicholas Longworth was present and said he would send a telegram to bring about a conference. What the result has been I do not know.

"Finally, in your telegram received this morning, you state that efforts have been made to create the impression that I favor a particular candidate for election as state chair-
